King of the Road Trucker's Bookkeeping Services

Safety Compliance Professionals

The DOT Doctor Difference

The DOT Doctor assigns a team of DOT Compliance Specialists to each client when you choose TDD's Virtual Safety Director Service®. This is your Virtual Safety Department. Your team will consist of a Safety Team Lead, an HR Trucking Specialist and a Driver Log auditor / trainer.

This assigned team works together to provide you with a full DOT Compliance solution. There is always a team member available via phone and email. **We are your safety department!**

Your TDD team will train your drivers and managers in all DOT Compliance Matters. We are who your driver calls when they need their ELD "fixed". We deal directly with the DOT on your behalf and are your representative during an audit.

The DOT Doctor is your one stop DOT compliance solution!
