

*Hopefully, this month finds you able to do something or go somewhere relaxing. With things opening up a bit, and mask mandates up to the wearer, it feels a little more like normal. I was able to spend an hour at a beach in St. Augustine, the only time allowed with moving my daughter into her apartment for her LAST (please read the excitement there) semester of grad school. But oh, that was a thoroughly relaxing hour! Hopefully, you are able to get out if not away to tend a garden, chat with neighbors or sit at a pool.*
