

## From the Business Meeting

We need more private sources of funds, since Jackson EMC foundation informed us that we should not be using their grants for overhead. We discussed various other funding.

PayPal account has been set up and is being verified. Once it is ready to use, we will add a button on the website for donations.

One machine is in for repairs. Willie took an old Singer sewing machine and cleaned it up and it is working fine. It would be good for sewing the large tote bags.

For February we gave out 57 layettes and no burials. Since we have been able to fill our requests for the last few months, we will consider expanding a little. North Fulton Hospital and Sheltering Grace were suggested as places to consider.

We expect to hear from several EMC's about grants over the next three months.

Our Fabric sale did not go well. We received \$172 from it. Most of the fabric was put back on the shelves. Thanks to all who helped with it.

Our booth at EXPO is #225. Several people are working on pincushions. Debbie Vickers is looking for volunteers.

The website is now working better for cell phones. Michele Murray said she could continue to fund the hosting and domain costs.

We are still getting burp cloths and lap pads. They are still on the website as items we make and they will be taken off there.

## Needs for this month

- Sleepers
- Gowns
- Large Totes
- Sweater sets
- Changing pads
- Sleep sacks
