Help When Help is Needed

A month or so ago we felt we were in dire straits. Our rents were increasing and we were letting a super resource go. We needed grants and monetary help to continue, and someone to step into some big shoes. While there were some sleepless nights, we have had people step up in amazing ways! We have a wonderful volunteer step in to help with the grants, we have had grants given we were not expecting and we have had workshop groups come up with some great and ingenious ways to raise funds. (yes, 501(c) can raise money for their organization) We are now looking into the ideas and how we can implement them. Thank you for the ideas and keep them coming. Please see below for some of the happiness as well as last month's \$5000 from Fidelity Charitable-Donor Advised Fund.

** The Max and Victoria Dreyfus Foundation awarded TS a grant for \$2,500. The Max and Victoria Dreyfus Foundation is a national non-profit foundation that awards grants to organizations for which a small amount of money might make a large difference. The Foundation supports community-based, non-profit organizations based in the United States. This is the second year that TS has received funds from this foundation. ***Funds can be used for general operating expenses, which include supply purchases and rental fees.*** This fact alone is amazing.

** McKesson has donated \$100 as a match to community service hours for charity submitted by Lisa O'Donnell.

Thanks again to Karen Fulford who meticulously went through and updated all of our patterns.

If you go onto the website, many will now show photos of each step that help give a clearer picture as to their construction.

The revised patterns are on the website, *would everyone please check to see that they are up to date on the guidelines.*

Any questions should be referred to workshop leaders.

(FYI - The above picture is a stock photo and not one of our patterns, though it does look like one!)
