

September 25:

Jeff Engleman, the Events Coordinator for Central Valley Corvettes, contacted Lee Blackstone regarding the possibility of our clubs doing some events together. They both agreed this is a great idea, and they are working together. For the first joint run, they are working with the Madera Speedway; Participating members will be provided with preferred parking and would be asked to do a couple of Parade laps between the races. Sign up list for participating in this event is at the table at General meetings...or call Lee Blackstone, if interested.
