

1. AFRIKAPRO, THE GRAND SLAM OF PIGEON RACING

- i. AfrikaPro created a unique platform where top pigeon fanciers across the globe will be recognized for the quality pigeons they enter, rather than quantity.
- ii. AfrikaPro is not a typical OLR. It is a new concept that sets a level playfield for all fanciers. This concept will revolutionise the OLR arena - the best fanciers will be ranked according to their consistent performance throughout the season.
- iii. More than one million pigeon fanciers worldwide deserve a Major event similar to that of other mainstream sports. AfrikaPro is a Grand Slam event for the world's best pigeon fanciers.
- iv. AfrikaPro offers the best odds to win big prize money with a total payout of US\$2,003,250.00!
- v. AfrikaPro is situated in the heart of the Waterberg in South Africa, a beautiful end-desination, but situated close to an international airport and central to many fantastic travel destinations.

2. HOW WILL IT WORK?

- i. Every registered fancier will be limited to send 20 pigeons to the AfrikaPro loft.
- ii. After the activation race all participants will select their team of 13 pigeons. Any excess pigeons over and above the identified 13-bird team will serve as the tracker pigeons or can be activated for the Sprint series, Ace Pigeon Competition and the Final Race at US\$750.00 per pigeon.
- iii. The racing series consists of 12 consecutive races with a sprint series at the beginning of the season.
- iv. AfrikaPro will not allow previously raced pigeons and such teams will be disqualified.
