

The difference between Communism and Marxism

Two essays by Daniel Cobble – Page 1 of 2
(Released Online September 16, 2024 at The-Protect-America-Project.INFO)

In Communism, the leaders want to remain permanently in power. This is human nature because we're all attracted to power. But Marxism, pursuant to the Jew Karl Marx (**1847**), seeks to tear down \ destroy institutions for its "anger towards- and envy of" Africa that brought the humanities (through the ancient matriarchal societies when the women chose the male leaders), Judaism, Jesus & Christianity, and the Bible as **today's social foundation**; and thus the Marxists' hate for Black people. For the same reasons, the Arab and Hindu patriarchs are also angry at Africa, their unwillingness to accept the "successful matriarchal societies" from the very beginning of Man. **They continue to oppress their women today.** Africa also enabled slavery for the West. — Enlightened President Vladimir Putin is releasing Russia's archives on Africa. — Candace Owens and JD Vance, for example, do not understand that this is why Christians are constantly under attack today, including during COVID-19 by leftist KY Gov. Andy Beshear. And apparently, Black Marxists, such as Dr. Cornel West, Whoopi Goldberg, and Kamala Harris do not understand this deeper meaning of Marxism in relations to Africa. (To avoid the "Marx founding racial component," the media and contemporary scholars teach that "evil capitalism" led to Marxism. But in 1847, capitalism was not the cause to break everything "in anger" without a replacement.) **American free enterprise** (at its peak during the Clinton economy) and the U.S. Constitution (**the two major contributions from whites**) ironically comprise the best exemplifications of "humanism" as defined by Dr. West, even though the Constitution was founded on Christianity. Politicos such as Kari Lake incorrectly believe America is under the threat of Communism. But in reality, Marxists such as Joe Biden, Gavin Newsom, and Harris have infiltrated the American system. This is exemplified by their ongoing destruction of U.S. institutions, enabled by the weak U.S. dollar that has weakened the middle-class, that began in 1999 caused by the **\$transfer-of-wealth** to Wall Street corporations (see Online). The **\$transfer** and then the "intentional \ planned COVID-19" have diminished American free enterprise, **the infrastructure of the U.S. tax base.** – Through Marxism, the white supremacist and "narcissistic supremacist Jew" have not accepted their places in history or life itself, the source of their unsettled behavior and mental illness that keeps the world unsettled \ unstable. Thus, the "revolution for peace" is in helping the supremacist to quail his anger by "seeing" and

Marx

Modern Racism**

accepting his place. Only then can he become whole to partake in humanity amongst us. — Today the supremacist is held in power by U.S. tax dollars. **Pursuant to the Constitution**, we prevent Marxism (and Communism) by simply demanding enforcing the "rule of law" **that's already established in America**.

CONCLUSION: The development of the world \ Man through Africa is a cosmic, organic process through the "God source." As introduced, **over the eons of time** under the matriarchs, Man was a happy, very successful species that brought civilization. The mature, "grown-up" human being begins to accept these truths. **Mankind began its downfall** relatively recently (estimated less than 5,000 years ago) when the patriarchs \ men of Ethiopia violently took over the matriarchs (women). Consequently, the Bible's "male-chauvinistic doctrine" of "God's six days of creation" has sought to erase the early beginnings of Man \ the "long matriarchal period." According to Google, today **around the world**, there are still over 40 matriarchal societies (including the Navajo Indians). ø

• **THE RULE OF LAW:**

We Simplify Life by Prosecuting War Criminals Joe Biden and Benjamin Netanyahu

They knew about the Oct. 7 attack but stood down to allow it to happen. Hence, the so-called Hamas war, **but really planned genocide**, is exploiting all of us. Oct. 7 also disqualifies Kamala Harris for President. Their criminal prosecutions will preserve democracy in the U.S. and in Israel. — **OTHER MISAPPROPRIATIONS OF YOUR TAX DOLLARS:** With Palestinian and Hamas leaders as billionaires from U.S.

tax dollars, the U.S. Gov't was never serious about a two-State solution for Gaza and the West Bank. Keep in mind that the CIA has worked hard to prevent the spread of democracy. Our annual military aid to Israel is an extension of the QUIET U.S. war policy, to create enemies for war, for the *military industrial complex*. **And hence, again, U.S. foreknowledge of Oct. 7.**

UKRAINE: More of the U.S. war policy. In 1992, NATO and the U.S. military\CIA agreed to stay out of Ukraine as a buffer trading zone for Russia and the West. This was in exchange for Russia to tear down the Berlin Wall to unify Germany. But today, NATO and the U.S.\President Biden are violating that 1992 Agreement. **For the rule of law**, Americans must demand ending the Ukraine war. — **Robert Kennedy, Jr. says** if we stop the U.S. war policy we can reduce the military budget by 50% with the same level of global security. ø
