

# SW-1

## Rotating Reflector Rotating Beacon

### Features

- Bright halogen bulb
- Gear driven reflector
- Corrosion resistant plastic base
- Two base finish options
- Economically priced
- Dome locking ring allows for easy bulb changes
- Five polycarbonate dome colors
- Easy mounting
- 12 VDC only

### Typical Applications

- Tow trucks
- Service vehicles
- Delivery vehicles
- Snow plows
- Construction equipment

### Description

The SW-1 offers a rugged rotating reflector beacon illuminated by a 50 watt halogen bulb in a low profile, eight inch housing. The halogen bulb's light is amplified by a gear driven parabolic reflector.

The SW-1 features a dome locking ring, which allows for easy bulb changes. The light is available in either a black or chromed plastic base, and in a variety of dome colors. With its sturdy three point mounting, this light is excellent for vehicles where visibility and simple mounting is critical.

### Specifications

#### Electrical Specifications
